

INTRODUCING LIFESEARCHCARE

- ONLY for LifeSearch customers.

LifeSEARCH CARE

If you became seriously ill, what value would you and your family put on **more** support, **more** help and **more** care?

This is why LifeSearch has created **LifeSearchCare***, an exclusive care and counselling service for you and your family – **when and where you need it most.**

You will automatically qualify for **LifeSearchCare** when you arrange your Life Insurance (with Terminal Illness), Critical Illness Cover or Income Protection Plan through LifeSearch.

What can LifeSearchCare do for you?

Should the need arise, you will be entitled to:

- A **Personal Nurse Adviser.**
- A free home visit from a relevant health professional. This might be:

A **Specialist Nurse** for conditions surrounding oncology, cardiology, neurology or requiring rehabilitation.

Or:

A **Therapist** for occupational health, physiotherapy or speech.

Or:

A **Counsellor** – when and if the need arises.

- A care plan, detailing key points from the home visit.
- Contact details and fact-sheets for specialist charities and self-help groups.
- Ongoing access to your Personal Nurse Adviser by telephone.**

LifeSearchCare is available to customers (*and their dependants*) who have been diagnosed with a serious illness or chronic health condition that is likely to have a long-term impact on their lifestyle or wellbeing. You will be reminded of the service if and when you make a claim under your policy, but you can also contact your Personal Nurse Adviser at RED ARC by ringing **01273 716700** in normal business hours.

*LifeSearchCare is provided by RED ARC Assured Ltd. ** In normal business hours. No time limit.
